

# JAVELIN J330i

The next generation of our most popular card printer, the Javelin J330i is one of the most powerful and flexible card printers in its class. Easy to use, this single-sided card printer produces reliable and high performance printing at an affordable price.

The Javelin J330i gives you versatility and cost effectiveness for a wide variety of applications including Employee ID and Access Cards, Student and Faculty ID's, Membership Cards and Personalised Loyalty and Gift Cards

## Innovative and Easy-to-Use

- Easy plug and play USB or USB with Ethernet interface simplifies configuration
- Print head bracket opens wide for easy ribbon access
- 16 character LCD screen for printer status and error reporting messages
- Translucent card cover allows you to see when supplies are running low, and blank cards can be added while printing
- Reject bin holds cards that fail to encode correctly

## Reliable and Flexible

- Print single-sided
- Revolutionary angled card feeder design means fewer rejected cards\*
- Self-aligning print head design for consistently uniform print quality i-Series™ functionality
- Automatic colour optimisation and driver configuration
- Enhanced ribbon formulation for optimal colour output
- Ribbon image counter and ribbon low notification

## Reliability and Performance Printing

- High Performance
- Single-Sided Card printing
- High Quality Printing
- Powerful and Flexible

### Full colour images

Direct to card dye-sublimation printing technology puts sharp, clear images directly onto the surface of the ID card.

### High Performance

- Vibrant, true-to-life colours
- High volume card through put
- Large capacity card feeder available
- Gentle open & close print head latch

### Make your cards more versatile

Optional magnetic stripe encoding module can add functionality to ID cards, for applications such as access control.

### Ideal For:

The Javelin J330i gives you versatility and is cost effective for a wide variety of applications including Employee ID and Access Cards, Student and Faculty ID's, Membership Cards and Personalised Loyalty and Gift Cards

\*\* Print speed indicates an approximate print speed and is measured from the time a card goes into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, CPU, amount of RAM and the amount of available resources at the point of time
