

# MATICA **chica** 4

With its new elegant forward-looking design and its advanced technology, the CHICA printer is one of the most compact printers available today. Devised and created to simplify printing on plastic cards, the CHICA combines technical performance, design and small dimensions together with an unmatched quality/price ratio.

CHICA is available in three models: Mag, Smart and RFID Mifare. All these encoding techniques are combinable, allowing you to customise your production of sophisticated cards in a single pass.

Extremely simple to use, the CHICA enables you to print high resolution photos, texts, logos, barcodes, signatures or any other digitised graphics very quickly, through the benefits of the latest electronics, data processing and mechanical technologies. Put the printer in place, connect the cables, install the card production software, and with a simple click you are ready to encode and personalise your cards in full colour without any further adjustment.

## Reliable and Performance Printing

- **click and print**
- **single sided card printing**
- **compact footprint**
- **cost effective**

## Specifications

<b>Key Features</b>	<ul style="list-style-type: none"> <li>■ Cost effective</li> <li>■ Click and print</li> <li>■ Very Compact</li> </ul>
<b>Printing method</b>	Thermal Transfer Dye-sublimation
<b>Dual Sided or Single Sided</b>	Single Sided
<b>Resolution</b>	300dpi
<b>Display</b>	n/a
<b>Print Speed</b>	<ul style="list-style-type: none"> <li>■ Single Monochrome (K) - 3.6 secs</li> <li>■ Single Full Colour (YMCKO) - 24 secs</li> </ul>
<b>Cost Per Print</b>	<ul style="list-style-type: none"> <li>■ \$0.03 per card (K)</li> <li>■ \$0.25 per card (KO)</li> <li>■ \$0.58 per card (YMCKO)</li> </ul>
<b>Card Range</b>	10MIL - 40MIL (0.25 - 1.0mm)
<b>Input Hopper Capacity</b>	100 cards
<b>Output Hopper Capacity</b>	50 cards
<b>Interface</b>	USB 1.1 (Standard) and Parallel Centronics
<b>Printer Weight</b>	6kg
<b>Printer Dimensions ( W x D x H )</b>	W235 x D395 x H194mm
<b>Warranty</b>	2 Year Printer Warranty 2 Year Print Head Warranty
<b>Safety Standard</b>	UL, CE, CSA and TUV approved
<b>Options</b>	<ul style="list-style-type: none"> <li>■ Magnetic Stripe Encoding</li> <li>■ Contact/Contactless Smart Card</li> <li>■ Network LAN Operation</li> </ul>

\*\* Print speed indicates an approximate print speed and is measured from the time a card goes into the printer to the time it ejects from the printer. Print speeds do not include encoding time or the time needed for the PC to process the image. Process time is dependent on the size of the file, CPU, amount of RAM and the amount of available resources at the point of time

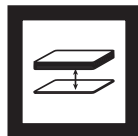

Single-Sided

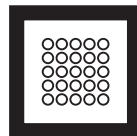

2 Years Warranty

24secs/card - YMCKO

0.25 - 1.00mm

300DPI

### ASURE ID™

Includes AsureID Solo™ card printing software – ideal for entry level card design and production

## Ingenious and Innovative

The CHICA's clever opening system allows you to change consumables in a few seconds. Located on the cover, the print head can be removed and reinstalled by a simple "push/turn" action without the need for tools or further adjustments. To guarantee perfect print quality, the CHICA is equipped with the CardClean system, an innovative card cleaning process, which ensures perfectly finished cards, card after card.

## High Quality Printing

The thermal transfer and sublimation print technologies of the CHICA enable outstanding full colour photograph and graphic printing on plastic cards. CHICA also prints in monochromatic text, bar-codes and graphic-designs at near production speeds. Many colour ribbons are available, as well as scratch-off and holographic overlays.

## 2 Year Warranty

The printer, just like the print head, has a two-year warranty\*.

\* Warranty valid only with use of Matica approved consumables & accessories.
